

## Fields of applications

- 1- Improved stoves and ovens
  - 2- Solar cookers, driers, water heaters, ...
  - 3- Photovoltaic solar energy
  - 4- Energy alternate fuels
  - 5- Biogas
  - 6- Biofuels
  - 7- Fossils energy efficiency systems
- Etc...

### Types of energy actions :

- little visibility for the other players
- originals / ingenious
- durable
- reproducible
- using the local resource
- limiting greenhouse gases emissions
- including a participative approach
- long-lasting

Example : Solar Hammam, Improved stoves, Alternative combustible "briquettes", ...

## Objectives in numbers

- At the end of phase 2, at least 9 countries engaged with 1 national agency and 2 focal points validated by member country.
- About 60 members

## A project made by the association « Au Rythme de l'Afrique »

Created march 1<sup>st</sup> 2006, the association - Au Rythme de l'Afrique - has for object, in France, the sensitization in our responsibility in the climate change and the education in a rational use of the energy

Of this fact it includes a responsible step in the implementation of the project « 18 mois en territoire africain : Objectif Bilan carbone neutre » [18 months in African land, Objective Carbon Free], and try to open a window on the african continent and its optimism.

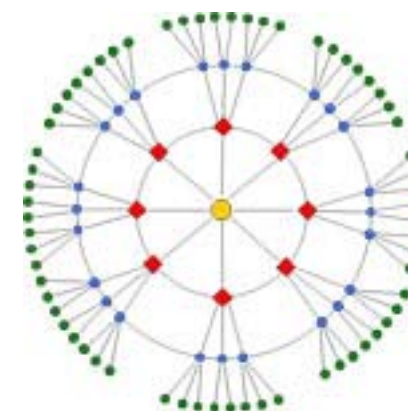

Site web : [www.aurythmedelafrique.org](http://www.aurythmedelafrique.org) (in French but with photos....)

Association governed by the law 1901 declared on February 01st, 2006 to the prefecture of the Rhône under the number W691063726 Code APE 913E N°SIRET 493 741 516 00014

**Association Au Rythme de l'Afrique**  
8 route de Saint-Romain-en-Gier « Barbalas »  
69 700 Saint-Jean-de-Touslas – France

# RISEAL

**Informations Network  
on Local African  
Energetic Solutions**  
(Réseau d'Information sur les  
Solutions Energétiques Africaines  
Locales)

***A collaborative approach***

**Facilitate the implemented of  
the good energy practices and  
offer to local populations  
simple and cheap solutions**

**Association Au Rythme de l'Afrique**  
8 route de Saint-Romain-en-Gier « Barbalas »

Actif Members in Africa :  
Fabien PERROT et Nathalie LANIER

**Energy** is a daily need in all the sectors of the life: feed, warm, find accommodation, work ... To facilitate its access, to save the resources, to rationalize its use, are conditions indispensable to a breast and durable development.

### RISEAL objective's:

- > Promote good energy practices
- > Inform and facilitate the exchanges of information in the continent scale
- > Be a tool of help to the editing of energy project
- > Strengthen communications capacities of the members

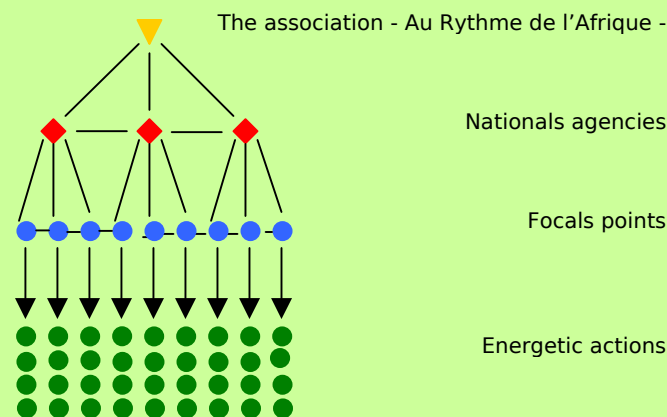

### The means ...

- 1 adress book of resources organism
- 1 data base of technical applications
- 1 web site <http://www.riseal.info>
- 1 forum
- 1 news bulletin per year

### With...

*Associations, Institutionnals, NGO, Individu, private,...*

### The network

Define fonctions ...

#### The Association « Au Rythme de l'Afrique » :

- register and centralize local energetic actions,
- distribute through members of the network an information bulletin (by regular mail and/or by email) explaining technically the different local energetic solutions,
- maintenance of the Internet site dedicated to the network,
- establish and maintain the link between different unit members of the association,
- provide training for national and local agencies to the use of evaluation grid for energetic.

#### Nationals agencies of R.I.S.E.A.L :

- are national representative of the network,
- gather information from local agencies and players,
- report back to the association Au Rythme de l'Afrique by email.

#### Focals points of R.I.S.E.A.L :

- are local representatives of the network and communicate on the life of the network,
- apply and adapt solutions proposed by the network,
- communicate, inform and provide training on chosen solutions,
- register, via evaluation grid, actions likely to be incorporated to the network and report back to the national agency.

## Previsional planning

### Phase 1

**september 2005 - february 2007**  
Editing of the project in France and player's identification of energetic project in Africa.

### Phase 2

**march 2007 - august 2008**

- > Meeting of the players listed within the framework of the project « 18 mois en territoire Africain : Objectif Bilan carbone neutre »
- > Validation of their commitment within RISEAL
- > Inventory of good energy practices
- > Realization of energy construction sites in Congo and Madagascar

*During this phase, RISEAL will have a centralized functioning and will be managed by the association Au Rythme de l'Afrique*

### Phase 3

- > Structuralization of the network and search for financing
- > To Appeal to energy projects
- > Expand the network to others members and countries
- > " Eco-volunteers' " sending on the ground to meet the new members or set up " energy construction sites " with member associations
